CHICKADEE JANE 2025

# Planting Calendar

## Welcome to the Chickadee Jane garden!

This calendar guide for planting is intended for newer gardeners, as well as those looking for a planning and tracking tool. Have fun!

**Instructions:** Determine your desired vegetables and herbs, and the date of last frost in your growing area. For each plant, determine whether you will grow your own seedlings indoors or buy them from a garden centre, and whether you plan to grow a second seasonal crop. Some seeds can be planted directly outside; duplicates on the list below indicate that more than one method is an option. Using your area's date of last frost, count backward to create a planting schedule by week that will take the guesswork and stress out of your growing season.

### START INDOORS

### PLANT SEEDS OUTDOORS (DIRECT SEED)

### PLANT SEEDLINGS OUTDOORS

### DIRECT SEED SECOND CROP

#### 8-10 weeks before the last frost

Leeks  
Thyme  
Eggplant

#### 6-8 weeks before the last frost

peppers  
broccoli  
tomato  
parsley

#### 4-6 weeks before the last frost

basil  
winter squash  
summer squash (zucchini, etc)

#### 3-4 weeks before the last frost

cucumber  
melons

#### 3-4 weeks before last frost

parsley

#### 2 weeks before last frost

broccoli  
kale  
beets  
turnip

#### When soil can be worked

peas  
parsnip  
salad greens (spinach, lettuce, arugula)  
carrots

#### After last frost, soil has warmed

summer squash (zucchini, etc)  
bok choi  
beans  
dill

#### When soil can be worked

onion sets

#### After the last frost

peppers  
tomato  
thyme  
melon  
cucumber  
broccoli  
basil  
leeks  
eggplant  
parsley  
winter squash

summer squash (zucchini, etc)

#### Late summer

bok choi

#### July - August

beans  
peas  
carrot  
cucumber

#### 4-6 weeks before the first frost

beets  
salad greens (spinach, lettuce, arugula)
